

WORKING SHEET / 01

Review one location.

A printable worksheet for your own operating assumptions. Not an FDOT form. No recommended bid prices.

Company / estimator

Review date

Selected location

Locations: Citrus | Hernando | Hillsborough East | Hillsborough West | MLK Jr. Boulevard | Pasco | Pinellas

Enter the quantities from the latest corrected sheet

Pricing line	Quantity	Your unit rate	Extension
Tier A / lot			
Tier B / lot			
Tier C / lot			
Tier D / lot			
Debris / ton			
Debris / Each			
Landscape / man-hour			
Location total			

Extension = quantity x unit rate. Add the seven extensions. Complete the official renewal-rate fields separately. Estimated quantities do not guarantee orders or payment.

Which assumptions still need an agency answer?

- ☐ Debris: confirm 6,150 tons and the meaning of Each.
- ☐ Mowing: confirm occurrences, parcel assignments and tier boundaries.
- ☐ History: request prior rates and actual utilization for these parcels.

Use the official notice and written answers. This worksheet supports your review; the bidder chooses rates and remains responsible for the submission.

WORKING SHEET / 02

Make the bid decision.

Test operating fit before committing crews, equipment and estimating time.

Operating input	Your evidence / assumption
Route and travel	_____
Crew capacity / response	_____
Equipment ownership / access	_____
Loaded labor and productivity	_____
Hauling and disposal arrangements	_____
Photos, timesheets, receipt process	_____
Overhead, margin and MFMP fee	_____
Lower-volume / scattered-work test	_____

Final preparation

- ☐ Qualifications, references and required equipment are documented.
- ☐ Required forms and corrected pricing sheet are complete and signed.
- ☐ Later addenda and required acknowledgments have been checked.
- ☐ One PDF is readable and under 25 MB; subject, name and body follow instructions.
- ☐ Delivery is planned before Nov 9, 2026, at 9:00 a.m. Eastern.
